CIVIX

Certified & Secure Solutions for Elections Officials

Modern, Secure Technology for Cities and Counties

TO ENSURE THE INTEGRITY OF ELECTIONS AND ENHANCE THE VOTER EXPERIENCE, ELECTION OFFICIALS ACROSS THE UNITED STATES TURNING TO CIVIX TECHNOLOGY TO MANAGE THEIR ELECTION PROCESSES.

AS A LEADING PROVIDER OF ELECTION SOFTWARE TO OUR NATION'S SECRETARIES OF STATE, WE ARE ABLE TO OFFER POWERFUL SOLUTIONS TO MEET THE UNIQUE NEEDS OF LOCAL GOVERNMENTS AS WELL.

CIVIX E-POLLBOOKS

Empowers poll workers through every step of the voting process – tailored to each jurisdiction's rules, systems, and capabilities.

CIVIX E-BALLOTS

Enables voters to complete ballots online and return them to election central – electronically and by mail.

CIVIX PRECINCT REPORTING

Allows precincts to deliver data directly to election central using mobile devices.

Unparalleled, Around-the-Clock Support

In elections, there is zero margin for error and the clock is always ticking. That's why Civix provides 24/7/365 support. A Client Success team is dedicated to you, and they're exclusively focused on making sure everything goes smoothly. And if you hit a snag, they'll address it immediately. Not some faceless chatbot, you'll know the members of your support team by name, and they'll be there whenever you need them.

Security is Our Top Priority

Keeping election data secure while anticipating and mitigating cyber-security threats is at the heart of everything we do for our software clients. Civix employs the best in the business to ensure you have one less thing to worry about. We've invested heavily in policy-based auto-mated deployments built on best practice security principles. This is complemented by full audit capability and 24/7/365 continuous mon-itoring of event data from systems, environments and best of breed security tools.

- Our formal information security program is aligned with the **NIST CSF** based on **NIST SP800-53**

- We offer our technology products on the **most secure cloud environments** available

- Our program places a high emphasis on **access control, detection, and response capabilities**

Civix e-Pollbook

## A COMPLETE PRECINCT MANAGEMENT SYSTEM

Our e-Pollbook empowers poll workers through every step of the voting process – tailored to each jurisdiction's rules, systems, and capabilities. It's a simple, modern, secure solution for ensuring elections run smoothly.

QUICK, EASY & AFFORDABLE TO DEPLOY

Quick – Template driven, our e-pollbook is highly configurable and can be customized to any jurisdiction's specifications and deployed in a matter of minutes.

Easy – Highly configurable doesn't have to mean highly complicated. Our templated configuration simplifies the entire process.

Affordable – Eliminate the need to invest in new hardware with our e-pollbook, which can run on virtually any device or operating system.`

Civix e-Pollbook

CREATES COST SAVINGS

Civix e-Pollbooks enables on-demand ballots, so there's no need for expensive stockpiles of pre-printed ballots. And since it runs on virtually any device and operating system, there's no need to invest in new hardware.

EASY TO USE

Once configured for your jurisdiction, our e-Pollbook is ready to be used election after election – without having to re-learn the system. Best of all, customizable workflows guide poll workers through every step. Managing precincts has never been easier.

SYNCHRONIZED IN REAL TIME

Data from each device in the secure network is instantly shared with all others – across the entire jurisdiction, allowing for unprecedented levels of efficiency, authentication, recovery, and analysis.

Civix e-Pollbook

HOW IT WORKS

Scan ID & Voter Authentication → On-Demand Ballot → Secure Data Synchronization → Real-Time Reports

CAPABILITIES

WORKFLOW

- Custom Workflow Engine
- Ballot On-Demand
- Real-Time Messaging
- Real-Time Alerts
- Same-Day Registration
- Integrated Support
- Ballot Receipts
- Hardware Agnostic

VETTING

- Voter Authentication
- ID Scan and Verification
- DMV Database Integration
- Signature Capture & Compare
- Street Index / Address Verification

DATA SHARING

- Instant Synchronization
- Real-Time Analytics
- Intelligent Dashboard
- Custom Reports

FEATURES

- **Scalable:** Ideal for individual precincts and entire state systems alike
- **Adaptable:** Easily accommodates legislative changes.
- **Compatible:** Has an open API and runs on any device and operating system
- **Customizable:** Able to meet the unique rules and requirements of any jurisdiction
- **Configurable:** Allows for a variety of user-configured workflows and reports

THE CIVIX E-POLLBOOK SOLUTION HAS MANAGED MORE THAN

46
MILLION VOTER CHECK-INS

Civix e-Ballots

CIVIX E-BALLOT ELIMINATES CHALLENGES ASSOCIATED WITH TRADITIONAL PAPER MAIL-IN BALLOTS THROUGH AUTOMATION.
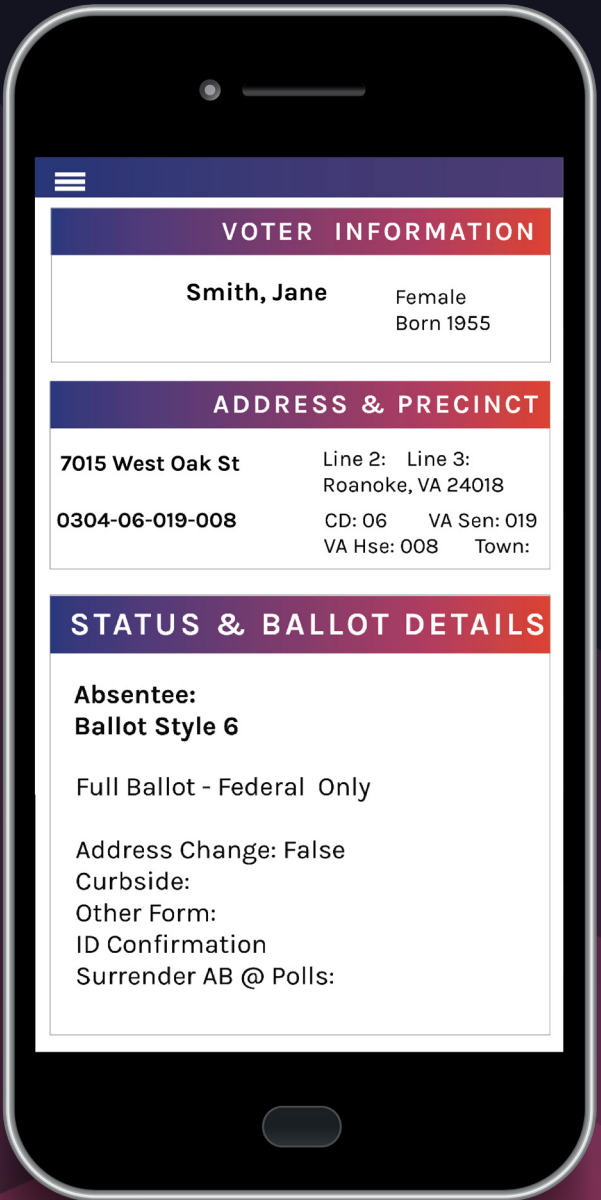

ENHANCES VOTER EXPERIENCE

Enables voters to complete ballots online and return them to election central - electronically and by mail.

SIMPLIFIES THE ENTIRE PROCESS

Automation speeds up and makes mail-in vote management easy, enabling officials to create, send, and receive electronic ballots.

STRENGTHENS VOTER CONFIDENCE

Voters enjoy real-time information and the ability to access ballots on any device, anywhere, and at any time.

- Online Ballot Marking
- Mass Notification Services

MODULAR

Integrates with Civix and third-party solutions

ACCESSIBLE

Meets current Web Content Accessibility Guidelines (WCAG) and is continuously tested to ensure ongoing ADA compliance

Civix Precinct Reporting

CIVIX PRECINCT REPORTING ENSURES ACCURATE RESULTS ARE REPORTED IN MERE MINUTES, INSTEAD OF HOURS OR DAYS.

ENABLES DIRECT COMMUNICATION WITH ELECTION CENTRAL

Where electronic transmission of election results from voting machines is prohibited, Civix Precinct Reporting allows poll workers to quickly share results via a mobile device.
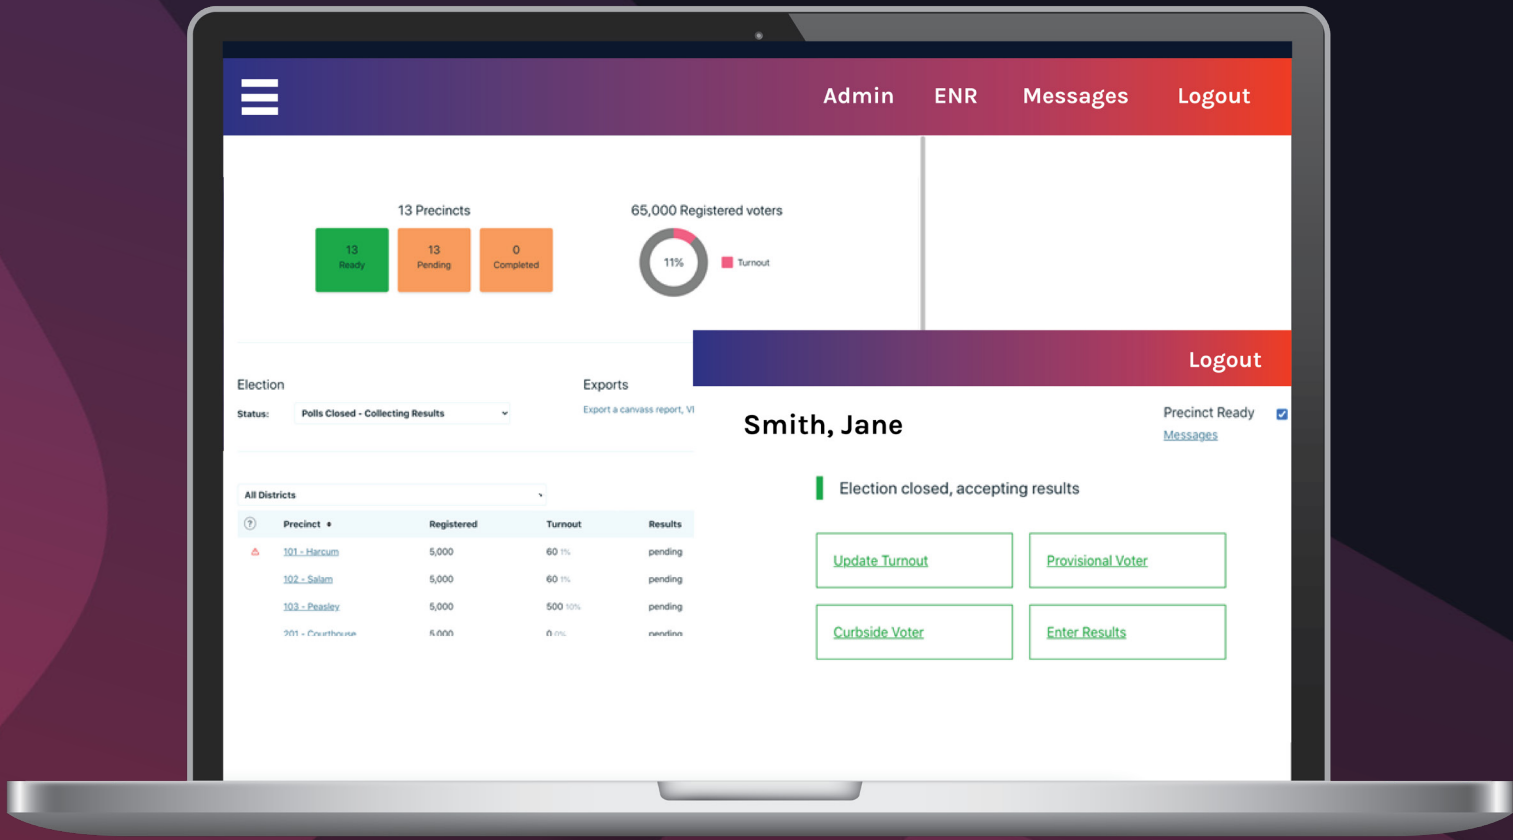

SAVES TIME & IMPROVES ACCURACY

Leveraging our proprietary technology to blueprint pdf ballots, our Precinct Reporting solution produces results in ballot order, reducing reporting time and increasing accuracy.

FACILITATES SECURE, REAL-TIME COMMUNICATIONS

In addition to results, Civix Precinct Reporting allows poll workers to communicate in real time – whether it be a polling place needs to close because of a burst pipe or to report a ballot error.
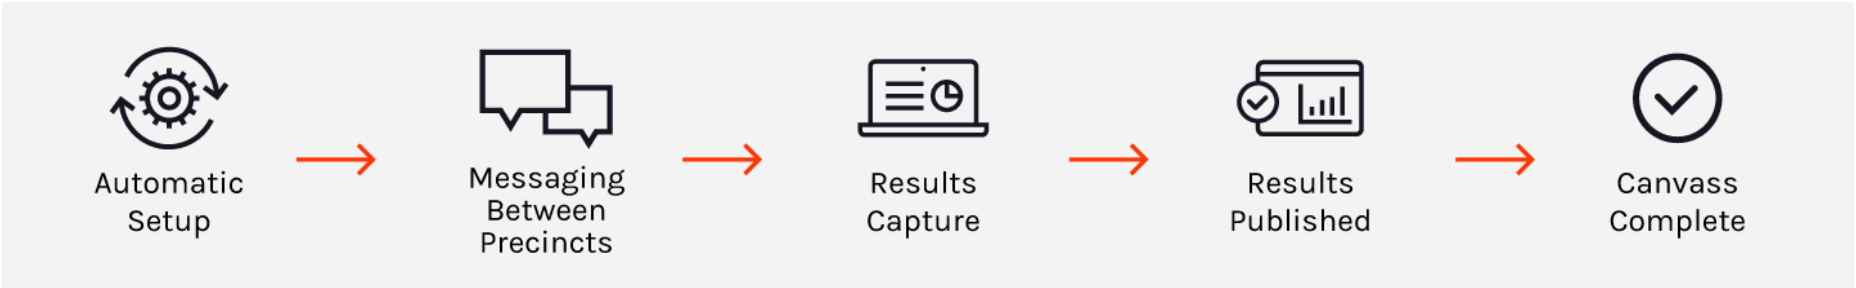

PROVIDES UNPARALLELED AUDITING CAPABILITIES

Civix Precinct Reporting records all the data and communications across the system, allowing for an unprecedented level of forensic auditing – down the keystroke.

Civix Precinct Reporting

HOW IT WORKS

Automatic Setup → Messaging Between Precincts → Results Capture → Results Published → Canvass Complete

CAPABILITIES

- Automated Setup of Election
- Messaging Between Precincts
- Results Capture from Tabulation Machines
